NOVA ADI SAPUTRA

Bachelor of Computer Science

Key Skills

- Various Programming Language
- Backend & API's
- UI Design
- Version Control System
- Database Management
- Multi Platform Development
- Network Management
- Server Management

Technical Skills

Fullstack-Cross Platform Development

Interests

Clean Code Art

Creative Design

Languages

Indonesian (Native)	English (Conversational)

About Me

I am an Informatics Engineering graduate with a deep passion for software development that began in junior high school. Over the years, I have developed strong proficiency in a wide range of programming languages including **PHP, JavaScript, Python, Go, Ruby, Dart, Java, Kotlin, Visual Basic, and C#**. I stay current with modern software development technologies and have hands-on experience working with various frameworks and tools. I excel in collaborative team environments, have strong communication skills, and am adept at analyzing and solving complex technical problems with a structured mindset.With a growth-oriented attitude and continuous learning spirit, I strive to contribute to impactful software solutions across web, mobile, and backend platforms—transforming ideas into functional and meaningful applications.
